

Remarks

The substitute specification submitted herewith includes amendments going to form only. Headings have been added, and minor grammatical corrections were made. The additions in the summary section replace the references to the claim numbers with the actual claim language and thus no new matter was added.

The substitute specification is relative to the immediate prior version of record which includes the annexes from the PCT application entered previously. Accordingly, the marked up copy of the substitute specification shows only the new changes being made herein.

Conclusion

For the reasons set forth above, entry of the substitute specification is requested.
